EDUCATION

Laval University

B.Sc. in Computer Science

Quebec City, QC

Sept. 2023 – Present

- Relevant coursework: Data Structures & Algorithms, Web Development, Operating Systems, OOP, Machine Learning, Databases, Software Engineering.

EXPERIENCE

Web Developer Intern

CHC Navigation (GPS & Topography Products)

Summer 2023

Tunis, Tunisia

- Built a responsive product showcase for GNSS/GPS and topography equipment (HTML, CSS, JS) — shipped to production and approved by client.
- Structured product pages with specs, high-quality images, and intuitive navigation alongside senior developers.
- Validated cross-device compatibility across desktop, tablet, and mobile through systematic UI testing.

Administrative Technician

Retraite Québec

Jan. 2024 – Present

Quebec City, QC

- Processed and tracked client files for RRQ mandates in a regulated compliance environment, maintaining data quality and on-time closure.

PROJECTS

Maktab | *React, TypeScript, Express.js, Prisma, PostgreSQL, Redis, Socket.IO*

2025 – Present

- Co-building a full-stack learning community platform (Skool-style) targeting Tunisia and North Africa — combines courses, community forums, gamification, and payments (Flouci gateway).
- Architected a REST API + WebSocket backend (Express.js, Prisma ORM, PostgreSQL, Redis/BullMQ) and built the React/TypeScript frontend with TanStack Query, Zustand, and real-time features via Socket.IO.

UTask | *Frontend, Backend, REST API, Auth, WebSockets*

2024

- Built a full task management UI (boards, lists, cards) with complete CRUD flows against a REST API documented with Swagger/OpenAPI.
- Added drag-and-drop with WebSocket real-time sync and optimistic UI updates for smooth, low-latency interactions.

UFood | *Vue.js, Bootstrap, Node.js, REST API*

2024

- Built a responsive restaurant discovery app with search and filtering by price, cuisine, and location using Vue.js and Bootstrap.
- Consumed a Node.js REST API with form validation, error handling, and loading states; tested across desktop, iPad, and iPhone.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, HTML, CSS

Frameworks: Vue.js, React, Node.js, Express, FastAPI, Bootstrap, RESTful APIs

Databases & Tools: PostgreSQL, SQLite, Docker, Git, Swagger/OpenAPI, Jupyter, Pandas, scikit-learn, Azure DevOps (learning), Power BI (learning)

Concepts: OOP, algorithms, data structures, JWT auth, WebSockets, Agile/Scrum
